

Harshren Bachhav

Software Engineer | Backend & Full Stack Developer

Software Engineering graduate with hands-on experience in Java, Python, FastAPI, REST APIs, SQL databases, and full-stack application development. Skilled in designing and developing scalable backend systems, authentication workflows, CRUD operations, and enterprise-style web applications using modern software development practices. Strong understanding of Object-Oriented Programming (OOP), Software Development Life Cycle (SDLC), API integration, database management, and problem solving. Experienced with building real-world applications using React, Node.js, PostgreSQL, Firebase, and Git-based development workflows.

Work experience

Software Developer Intern | Bn Studios

01/10/2025 – 31/03/2026 – Thane, India

- Built a full-stack CMS web application using React.js, Next.js, Node.js, and Express with real-time media and content management via an admin dashboard
- Developed REST APIs supporting CRUD operations, JWT and Backend Authentication for role-based access control
- Managed dual-database architecture using PostgreSQL and MongoDB with optimized queries for scalability
- Implemented Redux for state management and Tailwind CSS for responsive UI components
- Containerized and deployed using Docker following SDLC practices

Software Developer Intern | Troves Corporation

01/06/2024 – 31/03/2025– Thane, India

- Developed core modules of a mobile application using Flutter and Firebase
- Built employee onboarding, attendance tracking, and authentication systems
- Implemented real-time database operations using Firebase Realtime Database
- Designed secure login systems using Firebase Authentication
- Improved UI/UX and application performance through continuous testing
- Delivered a production-ready application used for internal operations

Skills

Languages:	Java , Python, JavaScript, SQL
Frontend skills:	React.js, Next.js, HTML5, CSS3, Tailwind CSS
Backend skills:	FastAPI, Node.js, Express.js, REST APIs, JWT Authentication, Spring Boot
Databases:	PostgreSQL, MySQL, MongoDB, Firebase Firestore
Mobile:	React Native, Flutter
Tools:	Git, GitHub, Postman, VS Code, Docker
Core Concepts:	OOP, SDLC, Agile, Dependency Injection, CRUD, API Integration, Authentication & Authorization, Database Management
Soft Skills:	Problem Solving, Communication, Team Collaboration, Adaptability

Projects

Smart Employee Management System | Java, Spring Boot, MySQL, REST APIs

- Developed an enterprise-style employee management system using Java and Spring Boot
- Implemented CRUD operations for employee records, attendance tracking, and leave management workflows
- Designed and integrated REST APIs for secure communication between frontend and backend systems
- Integrated MySQL database for efficient data storage, retrieval, and role-based access management
- Implemented authentication and authorization features for admin and employee users
- Optimized backend workflows and SQL queries to improve application performance and data management

AI-Powered Full-Stack Expense Tracker | Python, FastAPI, SQLAlchemy (PostgreSQL), REST APIs, JWT Auth, Docker, Vanilla JS/CSS

- Developed a full-stack expense management application using Python and FastAPI
- Implemented JWT authentication, CRUD operations, and secure backend architecture
- Integrated PostgreSQL using SQLAlchemy ORM for efficient database management
- Built REST APIs for expense tracking, CSV export, and smart expense entry workflows
- Tested API endpoints using Postman and deployed the application using Docker

Eaters Food Ordering Platform | React.Js, Firebase, JavaScript

- Developed a multi-vendor food ordering platform with real-time order management workflows
- Implemented authentication systems and vendor dashboard functionality
- Integrated Firebase for database management and real-time updates
- Improved ordering workflows and user experience for vendors and customers

Education & Learning

Bachelor Of Engineering – Computer Science Design (CSD)

2021–2025 | Thane, Mumbai, India • CGPA: 6.92 / 10

Mumbai University– New Horizon Institute of Technology and Management.

Higher Secondary Certificate (HSC)

2019–2021 | Thane, Mumbai, India • Percent: 85%

MH High School Junior College.

Secondary School Certificate (SSC)

2019–2021 | Thane, Mumbai, India • Percent: 71.20 %

BSM English Medium High School.

Extras

Certificate

- Meta Back-End Developer Professional Certificate

2 Research Papers

- Performance and Decision Analysis in sports
- Virtual Paint
